

Acknowledgment of Lead Times, Plan Sets, and Installation Process

This agreement is made between the Homeowner ("Client") and Suntria ("Company"), regarding the installation of the Client's solar energy system, which includes both solar panels and a battery storage unit (if applicable).

1. Understanding of Manufacturer Lead Times and Delays

The Client acknowledges that the delivery of certain components, specifically the battery storage unit, may be subject to manufacturer lead times and delays outside of Suntria's control. These delays could affect the timeline for the installation of the full solar energy system, including the battery.

2. Creation of Two Plan Sets

In light of potential delays related to the battery, the Client agrees that Suntria will create two separate plan sets for the solar energy system:

- a. **Plan Set 1** – For the installation of the solar panel system without the battery.
- b. **Plan Set 2** – For the subsequent installation of the battery once it becomes available.

3. Installation of Solar Panel System

The Client understands and agrees that Suntria will proceed with the installation of the solar panel system as per Plan Set 1, once all necessary permits and approvals have been obtained. This will allow Suntria to install the solar system independently of the battery unit and work toward obtaining utility approval to turn on the solar system.

4. Subsequent Installation of Battery

Once the battery storage unit becomes available, Suntria will install the battery according to Plan Set 2. The installation of the battery will occur separately from the solar panel installation and may require additional permitting and inspections.

5. No Impact on Solar System Activation

The Client acknowledges that the delay in receiving or installing the battery storage unit will not impact the activation or performance of the solar panel system, and Suntria will work to ensure that the solar panels are operational as soon as possible, without waiting for the battery.

By signing below, the Client agrees to the terms outlined above, acknowledging the possibility of lead times and delays and understanding the installation process.
